EARLY LEARNING COALITION OF BREVARD SEEKS PRIVATE SECTOR  
MEMBERSHIP FOR BOARD OF DIRECTORS

The Early Learning Coalition of Brevard is looking for individuals interested in supporting Brevard County children and their families. The Coalition's Board of Directors is seeking members from the private sector to join others who are already committed to guiding early learning services in our community.

The Coalition is responsible for providing oversight of the School Readiness Subsidized Child Care Program as well as the Voluntary Pre-Kindergarten (VPK) Program. These impactful programs assist families with achieving economic self-sufficiency as well as preparing children for success in school by providing developmentally appropriate educational experiences.

Interested business professionals with experience in the areas of law, finance, professional development, education or general business are encouraged to apply. For more information on the expectations of board membership, please email [lgambino@elcbrevard.org](mailto:lgambino@elcbrevard.org).
