### SLIDING FEE SCHEDULE

#### Instructions

|                           |                                                                                                                                                                                                                                                                                                                           |                                                                  |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------|
| 85% SMI                   | The 85% of the SMI that is included in the red font under each family size is the upper threshold. As a family size increases, the SMI becomes lower than the FPL. Even though this happens, the SMI indicated on the sliding fee schedule is used as the upper threshold for that particular family size.                | BG8-ECON                                                         |
| 70% SMI                   | The 70% of the SMI that is included in the green font under each family size is the entry threshold for SR Match. As a family size increases, the SMI becomes lower than the FPL. Even though this happens, the SMI indicated on the sliding fee schedule is used as the entry threshold for that particular family size. | SRMAT                                                            |
| TCA Clients               | Income may exceed 85% of SMI as long as it remains below 185% of FPL.                                                                                                                                                                                                                                                     | BG3-TCAN, BG3W-TCAW, WRC-RC                                      |
| TANF                      | Income may exceed 85% of SMI as long as it remains below 200% of FPL. If income increases above 200% FPL, they can be moved to BG8 until they reach the CCDF exit threshold of above                                                                                                                                      | BG3AP-APP, BG3-28A, BG5-TCC                                      |
| At-risk and special needs | Eligibility is not dependent on family income. Sliding fee schedule assists in setting parent fee.                                                                                                                                                                                                                        | BG3R-RCG; BG1-IN, -OUT, -14R, -13, -11, -FAM, -HOME, -11D; CF-SN |
